

# Deadline<sup>®</sup>

## TERMITE FEEDING ACCELERATOR

An ecologically sound termite food to assist with termite feeding activity within the bait stations.

### DIRECTIONS:

1. Open zip lock bag and add approximately 100mL-200mL bottled water and work to a paste.
2. Pour contents over bait wood in the Deadline Bait Station, close lid.
3. Monitor 5-7 days later. If there is termite activity then introduce Deadline Termite Bait to the bait station directly on top of the activity.

NOTE: Do not use tap water as termites may detect any chlorine or other cleaning chemical that may have been used.
